IFHNOS World Tour 2019
October 18 - 20, 2019 • Leuven, Belgium

For the IFHNOS 2019 World Tour, we would like to welcome you in Leuven, a vibrant university town, combining academic rigour with the art of enjoying life. The IFHNOS world tour is an opportunity to update knowledge, to share ideas and learnings around the management of head and neck cancers, and to discuss difficult cases or controversial areas.

The IFHNOS World Tour Event is hosted by the Flemish Head & Neck Society (VWHHT) and the FNRS Head & Neck Cooperative Group and embodies their Annual Joint Meeting.
